Subject: RE: Desk statement for review - CSD sampling

Just adding that this would be Northeast Juneau County.

Linda,

Does this look okay as revised to refer to Northwest Juneau County, Wisconsin as opposed to Nekoosa?

DRAFT desk statement – Central Sands Dairy sampling results

On April 30 through May 2, EPA sampled groundwater west of Petenwell Lake in Northwest Juneau County, Wisconsin, after receiving complaints of private drinking water well contamination. EPA has received some preliminary sampling data and is notifying property owners of their individual results as they come in. Once a complete data package is received, EPA will analyze the results and determine if an environmental problem subject to EPA authority exists.

Please review the draft statement and send me any edits. We will continue to notify impacted residents of their sampling results, right?

DRAFT desk statement – Central Sands Dairy sampling results

On April 30 through May 2, EPA sampled groundwater west of Petenwell Lake near Nekoosa, Wisconsin, after receiving complaints of private drinking water well contamination. EPA has received some preliminary sampling data and is notifying property owners of their individual results as they come in. Once a complete data package is received, EPA will analyze the results and determine if an environmental problem subject to EPA authority exists.
